Short report about the activity of the foundation:

Activity of our foundation has been continuously being done since establishment of it. Our main task is care of the Jewish cemetery in Monor, tidying and making a memorial park there.

According to this we reconstructed the following tombs in 2006:

Tomb of József Goldstein (45.no): it has completely been renewed, i.e. the tomb has been taken to pieces, new base has been made, stones have been repolished, a new cover stone has been made.

Tomb of Adolf Markbreiter (26.no): complete renewal, the tomb has been taken to pieces, new base has been made, stones have been cleaned and the name plate has been reproduced.

Tomb of Imre Hirschl (63.no): complete renewal, the tomb has been taken to pieces, new base has been made, stones have been cleaned

Tomb of Mrs. Dr. Sándor Löwy (24.no): upper fallen-down stone of the tomb has been rebuilt, the stone has been fixed with cement.

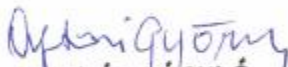

Whole year we cared of the cemetery, in autumn we organized a big cleaning on the whole area of the cemetery.
