The officers, members of the advisory board do their activities free of charge, no any salary is given for it. In 2007 members of the advisory board didn't receive any reimbursement of expenses .

Our foundation has no property, has no obligation of making a report of property use.

Short report of the activity of the foundation:

Our takings come from applications and donations of firms, private persons and Toronto Jews Association of Hungarian Descent.

Our foundation has been working since it was established, our main task is to maintain the Monor Jew cemetery, to keep it clean and to make a memorial park there. According to the decision of the advisory board in 2007 we renovated tombs. For one thing we reconstructed the tombs that had been damaged by vandals, we not only reconstructed but renewed them.

Renewed tombs:

- Tomb of Mrs. Ferenc Szilágyi
- Tomb of Mr. Mihály Kohn
- Tomb of Mrs. Marton Rosenberg
- Recovering of Martyrs monument

In the whole year we were keeping the cemetery clean, in autumn we organized a big cleaning of the whole area of the cemetery.

According to our plans we upgraded our home page. Its administration system helps us to maintain our home page without a specialist, enclosing photos and documents got easier, searching optimization got more perfect.

We organized a cultural programme together with the Parsifal-Lohengrin Foundation from the donation received to this end, with some inhabitants of Monor we visited to Danube Palace to an operetta performance.

Cooperating with local secondary school students several times we went to the Holocaust Remembrance Centre, where they could participate on lessons and museum attends.

Monor 10 February 2008
