

31 November 2001.

Dear Tibor Koltai,

Thank you for your personal witness, which made the archive of the Visual Historical Foundation of Shoah Survivors richer and which made possible for generations of the future to be in direct connection with history.

Your interview is an important part of the archive which will be the most comprehensive archive of all and which we will take care of. Who will look at this collection in the future will see a face, will hear a voice and can follow a course of life and can learn from it and will remember for ever.

We thank you for your invaluable present, power and spiritual generosity.

Best regards to you.

Yours sincerely

Steven Spielberg
President
